

HANSINI SAMARATHUNGA

UI/UX DESIGNER | QA ENGINEER | FRONTEND DEVELOPER

SUMMARY

Final-year BSc (Hons) Computer Science undergraduate at NSBM Green University, affiliated with Plymouth University (UK), with hands-on experience in frontend development, UI/UX design, software testing, and mobile application development. Experienced in designing user-centered interfaces, developing responsive applications, conducting testing activities, and collaborating in Agile development environments. Seeking internship opportunities in UI/UX Design, Software Quality Assurance, and Frontend Development.

PROJECTS

EmoSense – AI-Powered Emotion Recognition & Mental Wellness Platform

Technologies: **React.js, Django, TensorFlow, OpenCV**

- Developed responsive user interfaces using React.js.
- Integrated frontend and backend APIs.
- Participated in testing and validation activities.
- Improved user experience through emotion history tracking and personalized recommendations.

PetPals – Mobile Application (Team Lead)

Technologies: **Flutter, Firebase**

- Designed application interfaces and user workflows.
- Developed mobile application screens using Flutter.
- Led project coordination and task management.
- Enhanced usability and user interaction experiences.

DocuHealth – Patient Record Management System

Technologies: **Next.js, React.js, MongoDB**

- Contributed to frontend development and interface implementation.
- Participated in testing and validation processes.
- Improved usability and user experience across system workflows.

FloodSense – IoT-Based Flood Monitoring & Early Warning System

Technologies: **Flutter, ESP32, IoT Sensors**

- Developed mobile application components.
- Participated in UI implementation and system testing.
- Assisted in software validation and documentation activities.

EDUCATION

Bachelor of Science (Hons) in Computer Science
NSBM Green University / Plymouth University (UK)
2023 – Present

Relevant Areas:

- Business Analysis & System Analysis
- Human-Computer Interaction (HCI)
- Artificial Intelligence & Machine Learning
- Big Data Analytics
- Full Stack Development
- Mobile Application Development
- Software Development Practices
- Database Management Systems
- Internet of Things (IoT)
- Computing Group Project

SKILLS

Software Quality Assurance

- Manual Testing
- Test Cases
- Test Scenarios
- Bug Reporting
- Defect Tracking
- Software Testing Life Cycle (STLC)
- API Testing
- Postman
- Test Documentation
- Quality Assurance

UI/UX Design

- User Research
- Wireframing
- Prototyping
- User Flows
- Responsive Design
- Design Thinking
- Usability Testing
- Figma

Frontend Development

- HTML
- CSS
- JavaScript
- React.js
- Next.js
- Flutter
- Tailwind CSS
- Responsive Web Design

Technical Skills

- SQL
- MySQL
- MongoDB
- Firebase
- REST APIs
- Git & GitHub

Tools

- Figma
- Postman
- VS Code
- GitHub
- Jira
- Trello
- Draw.io
- Canva

COMMUNITY ENGAGEMENT & LEADERSHIP

Council Member – NSBM FOSS Community (2025–2026)

- Coordinated technology-focused events and student engagement initiatives.
- Collaborated with teams to organize community activities and programs.

Women in FOSS – Organizing Committee Member

- Supported event planning, outreach, and community engagement activities.
